Setup your Device

Battery Operation

The device battery is polymer type battery, which should only be charged by using original Urovo power supply. Metal contact is unavailable or artificial short circuit electrode. Do not store battery in hot, humid, or corrosive environment. Do not break or crack battery. Do not store battery when it is fully charged completely drained.

If device is not used for long period of time, remove the battery from the device, pelase. If the battery is misshapen or is found leaking, replace the battery immediately. Note: The battery should be charged for at least 8 hours before the first use.

Installing a Micro SIM/MicroSD Card

- Only use a micro SIM card
1. Swing open the main battery cover clip by 90 degrees, you can then remove the battery cover.
 2. Slide the Micro-SIM Card into the corresponding slots with contacts facing down.
 3. Press and pull the card to remove.

Note:
Overexertion should be avoid when installing or removing the card.

Battery Installation

Insert battery in the direction as shown in the picture on the right . Sit the battery tightly in the corresponding position.

Unlocked Position

Locked Position

Note: Gently rotate the battery cover clip in quarter-turn motion. Do not apply excessive force.

Charging by Standard Cradle

DC Power Adapter

Charging by USB Data Communication Cradle Place the device in the USB Data Communication Cradle which comes in the box

When starts to charge battery, the P indication LED of dock will be green. The red C indication LED will turn green after battery is fully charged.

Connect the power cable into the cradle. P: LED indicates the cradle is operational. Slot the device into the cradle and take note of the LED change on the device which indicate the charging process. Slot the battery into the cradle as shown in the picture. C: LED should lit up to indicate charging.

Note:

This cradle is an optional accessory.

Connecting to PC

After you install the Android driver or an Android smart phone assistant, you can connect the devices to your PC with USB cable provided. (You can download the software mentioned above from www.urovo.com/en. After device connected to your PC, the screen would display like this:

Tap the top of the screen, drag downwards and the USB setting interface will appear.

To turn on debug mode

Click on this to go the next right interface
Click on this to go the next left interface

Device Care & Maintenance

Read all information before using the device to ensure safe and proper operation. Following are the warning information provided below to prevent incidents such as fire or explosion.

Warning

- Using unapproved power source, charger or battery may cause fire, explosion or other risks.
- Please use the accessories approved by manufacturer and corresponding to this model.
- Please charge device by standard charger of the manufacturer. Using other chargers may cause electrical leakage, fire, or damage to equipment and chargers.
- If charging is completed, remove the charger from the device and unplug the charger from the power outlet. Do not charge more than 12 hours.
- Do not expose to physical impact or damage.
- Do not use outdoor during a thunderstorm.
- Turn off the device before storage to prevent the battery to be completely drained.

Do not expose to high temperatures, battery overheating may cause an explosion.

- Do not use the battery if the battery appears discoloration, deformation, abnormal heating, expansion and other phenomena.
- Stop using and disconnect all connections to other devices or cables before cleaning and maintaining the equipment.
- Do not touch the device with wet hands. Also, do not use the device in humid environments, such as rest rooms, or during water-base activities, such as swimming.
- It is recommended to use your device at temperature between 5 ~35 °C (41~95 °F) .
- Do not store the device near or in heaters, microwave, cooking equipment, or high pressure containers.
- Keep the device dry.
- Do not use the device in the environment of potential explosion risk (including the gas station, below the deck of the ship, near the transportation or storage facilities of fuel or chemicals, and the area in the air containing chemicals or grains, metal powder and other particles).

Children

- 1) Do not allow children or pets to bite or suck the device.
- 2) Do not poke eyes, ears, or other body parts with the device or insert the device into the mouth.
- 3) If the device has a camera flash, do not use it close to the eyes of people or animals.

Transport Precautions

Do not transport the battery at ambient temperature higher than 65 °C (149 ° F). Please keep device and battery separately during storage. Pack battery with appropriate packing materials.
